## Terms of Use

1. Utmost care has been taken to ensure the proper checking of the information and compilation. In case of any discrepancy, please write to us at [info@mohitmangal.com](mailto:info@mohitmangal.com) or WhatsApp us on the link given below.
2. For the latest updates, we strongly urge you to check and rely on the actual website of the College / Univ. or the test conducting body given in the Book.
3. The list of colleges provided for different courses are limited and not exhaustive. Few lists are ranked and other lists are in alphabetical order of the states.
4. The Ranking of colleges given in the book are based on the 20 Years of experience in the education sector of the Authors. The ranking given is the true understanding and view point of the authors and may differ with others.
5. The Compiled Content including degree nomenclatures, entrance exams details, website addresses etc. in the book has been gathered from various authentic sources like Ministry of Education (MoE), Higher Education Commission of India (HECI), University Grants Commission (UGC), All India Council for Technical Education (AICTE) and National Council for Teacher Education (NCTE), Individual College / University or Institution websites, etc. This data is being used for educational and information giving purpose. The author acknowledges all sources whether mentioned or otherwise.
6. Few abbreviations which are used in the Compilation: PI (Personal Interview), GD (Group Discussion), SA (Skill Assessment), WAT (Written Ability Test), MP (Micro Presentation), SOP (Statement of Purpose), RPT (Remote Proctored Test)
7. Please Note that the Dates mentioned are tentative according to current/previous Schedule of Entrance Exams. For detailed information on the same, kindly visit the mentioned website under every test.

## What is Economics?

Economics is concerned with the creation, consumption, and transfer of wealth. The study of economics encompasses the major areas of microeconomics, which explores how people and firms produce and consume goods and services, and macroeconomics, which explores mass economic progress and inter-country trade. Economic methods may be used to study all kinds of issues, from land and other natural resource use, to how much people should work, to how to develop human capital through education. Economics can provide insights in areas as diverse as how workers should be rewarded, how government should conduct fiscal and monetary policy, and how health care markets work.

The basic theoretical and statistical tools of economics are applied to virtually every field of human endeavor. Major fields of study within economics include Behavioral Economics, Development, Econometrics, Economic History, Financial Economics, Industrial Organization, International Economics, Labor Economics, Macroeconomics, Mathematical Economics, Political Economics, Public Economics, Economic Theory, and Urban Economics.

A degree in economics has various career paths as students graduate with skills in high demand across numerous industries, including Banking, Consulting, Public Service, and many others.

## Career Prospects after Education in Economics

### TECHNICAL CAREERS

#### Actuary

An actuary is a professional who specializes in assessing and managing risk, particularly in the fields of insurance, finance, pension plans, investments, and other industries that require statistical analysis to predict future events and uncertainties. Actuaries use mathematics, statistics, probability theory, finance, and economics to analyse data and make informed predictions about future outcomes, often related to events like death, illness, accidents, natural disasters, and economic shifts.

#### Agricultural Economist

Agricultural economists examine data to determine patterns and trends in economic activity. They also conduct research to collect data and market samples. They use the predictions obtained from their research to inform, influence, and improve the business decisions of clients and agricultural organizations

#### Banker

Bankers are sometimes referred to as securities, commodities, and financial services sales agents. They are responsible for performing banking duties and overseeing the financial activities for personal account

#### Business Analyst

Analyst involved in the design or modification of business systems or IT systems. The analyst interacts with the business stakeholders and subject matter experts in order to understand their problems and needs. The analyst gathers, documents, and analyzes business needs and requirements.

#### Business Economist

Business economists study the ways that society distributes scarce resources and conducts research. They research various issues such as inflation, interest rates, employment levels, energy costs, imports, etc. They advise all sorts of organizations,

banks, industrial and trade associations, unions and agencies. They perform research by making use of surveys, and then compile reports to make the information understandable to non-economists.

#### Cost Accountant

Cost accountants are responsible for budgeting, cost management, performance evaluation and asset management within a company or organization. They typically collaborate as part of an executive team to create a financial plan for the organization.

#### Data Analyst (Banking Sector)

A financial data analyst prepares financial reports that serve as summary information for managers. The financial data analyst is responsible for identifying relevant insights and compiling analytical reports that enable other employees in the company to make sound decisions. In the Banking and Financial Services sector, through data analytics, institutions can monitor and assess large amounts of customer data and create personalized/customized products and services specific to individual consumers.

#### Econometrist

An expert in the application of mathematical and statistical techniques to economics in the study of problems, the analysis of data, and the development and testing of theories and models.

#### Economic Researcher

An Economic Researcher conducts research, prepare reports, or formulate plans to address economic problems related to the production and distribution of goods and services or monetary and fiscal policy. May collect and process economic and statistical data using sampling techniques and econometric methods.

#### Equity Analyst

Equity research analysts research public companies and come up with recommendations for investors about whether to buy, sell, or continue holding certain stock. Both brokerage firms on the sell-side as well as funds on the buy-side both employ equity research analysts.

#### Finance Analyst

Financial Analysts researches macroeconomic and microeconomic conditions along with company fundamentals to make business, sector and industry recommendations. They often recommend a course of action, such as to buy or sell a company's stock based upon its overall current and predicted strength.

#### Finance Consultant

Financial Consultants work with companies or individuals to plan for their financial futures by offering information and guidance on topics that include taxes, investments and insurance decisions.

#### Finance Controller

A Finance Controller (also known as Financial Controller) is a senior-level professional responsible for overseeing and managing the financial operations of an organization. Their role involves ensuring accurate financial reporting, budgeting, forecasting, compliance with regulations, and overall financial health of the business. Finance controllers typically report to the Chief Financial Officer (CFO) or the organization's executive management team.

#### Finance Manager

Financial Managers are responsible for the financial health of an organization. They produce financial reports, direct investment activities, and develop strategies and plans for the long-term financial goals of their organization.

#### Finance Planner

A Financial Planner, also called a personal financial advisor, works with individuals and businesses to guide them in making budgetary, savings and investment decisions. They need good communication and interpersonal skills in addition to financial knowledge.

#### Financial Risk Analyst

A risk analyst is responsible for risk management in the investments so as to help with the financial success of the organisation where they work. The risk analysts mainly identify and analyse the potential risks associated with the areas mentioned above and then develop risk mitigation strategies for the same.

#### Industrial Economist

Industrial Economists conduct research, prepare reports, or formulate plans to address economic problems related to the production and distribution of goods and services or monetary and fiscal policy. They collect and process economic and statistical data using sampling techniques and econometric methods.

#### International Economist

An International Economist is a professional who specializes in the study and analysis of economic interactions and relationships between countries and regions. Their primary focus is on understanding global economic trends, international trade, investment flows, exchange rates, economic policies, and the effects of globalization on national economies.

#### Investment Analyst

An Investment Analyst is a professional who conducts research and analysis on financial assets such as stocks, bonds, commodities, real estate, and other investment instruments. The primary goal of an investment analyst is to provide recommendations based on their findings to guide investors or investment managers in making informed decisions about where to allocate capital.

#### Investment Banker

Investment Bankers help their clients raise money in capital markets by issuing debt or selling equity in the companies. Other job duties include assisting clients with mergers and acquisitions (M&As), and advising them on unique investment opportunities such as derivatives.

#### Investment Manager

An Investment Manager is a professional responsible for managing investment portfolios on behalf of individuals, institutions, or organizations. Their primary role is to make informed investment decisions, allocate capital across various asset classes, and ensure that the portfolio aligns with the client's financial objectives, risk tolerance, and investment horizon.

#### Labour Economist

Labor economists and demographic economists study the supply and demand for labor and the determination of wages. These economists also try to explain the reasons for

unemployment and the effects of changing demographic trends, such as an aging population and increasing immigration, on labor markets

#### Plutologist

A Plutologist is a professional who specializes in the study of wealth, particularly its distribution, accumulation, and the economic and social impacts of wealth in society. Plutologists analyse the concentration of wealth, the behaviours of the wealthy, and the broader implications of wealth inequality on economies, societies, and governance.

#### Professional Economist

Economists conduct research, collect and analyze data, monitor economic trends, and develop forecasts. Their research might focus on topics such as energy costs, inflation, interest rates, farm prices, rents, imports, or employment. The core responsibilities of a professional economist are to produce rigorous, relevant and impactful economics analysis to drive decision-making at all levels - from operational decisions to strategic, business and policy decisions.

#### Risk Managers/Analyst

Risk Managers/Analysts deal with identifying, measuring, and evaluating different types of risks that can affect a business. They also need to be knowledgeable about the industry they operate in, so that they are able to identify the risks posed to a specific organisation

#### Stock Broker

A Stock Broker is a professional who facilitates the buying and selling of securities, such as stocks, bonds, and other financial instruments, on behalf of clients. They act as intermediaries between investors and the stock exchange, executing trades according to the client's instructions. Stock brokers may work with individual investors, institutions, or businesses, providing advice, executing trades, and sometimes offering additional services like portfolio management.

### **GOVERNMENT RELATED JOB OPPORTUNITIES**

#### Banking Services within the Public Sector

It is the most common and popular career scope in Economics. Reserve Bank of India

recruits' economists in the banking sector through their own different recruiting examinations. You should have an age limit of 21-28 years. You can also find jobs in research institutes like the National Council of Applied Economic Research, New Delhi; Indian Council of Social Science Research, Institute of Economic Growth, New Delhi, etc. One can appear in IBPS and State Bank recruitment exam to get absorbed in the banking sector.

#### Indian Armed Forces

Any graduate can join Armed Forces through the Combined Defence Services examination, conducted by UPSC, as a regular/short service commissioned officer. One can also apply for Indian Air Force through AFCAT exam, Indian Navy through INAT exam and Indian Coast Guard through various entry schemes open for graduates.

#### Indian Civil Services

One can join the prestigious 3 all India Civil Services including Indian Administrative Service (IAS), Indian Police Service (IPS) and Indian Forest Services (IFoS). One can also join any of the 16 Group 'A' Civil Services including Indian Foreign Service (IFS), Indian Audit and Accounts Service (IAAS), Indian Revenue Services (IRS) Etc. and other Central Group 'A' and Group 'B' Civil services.

#### International Agencies

Experienced and famous Economists can get employment opportunities in a well-known international organization like the World Bank and the International Labor Organization.

#### International Monetary Fund

Work either on (i) economic developments and policies in one or more member countries as a "desk economist" in an area department or (ii) on general policies or more specialized functions in a functional department.

#### Public Finance and Policy

National Institute of Public Finance and Policy is a premier research institution in public economics and policies. The institute has made significant research contribution in the

area of revenue and taxation, fiscal management, public expenditure, macro-economic policies, fiscal federalism and other public finance and policy issues both at the Central and the State-level.

### ACADEMIC CAREERS

#### Research Institutions

Work with institutions such as NIPFP (National Institute of Public Finance and Policy), NCAER (National Council of Applied Economic Research), ICRIER (Indian Council for Research on International Economic Relations) Etc.

#### Teaching Profession

It is one of the best Career Scope in Economics after completion of the degree. As an Economics Graduate, you can appear for CTET or other state-level teaching exams and become a teacher. After completing M.A in Economics with at least 55% marks a candidate can either pursue Ph.D. in any University or appear for University Grant Commission's National Eligibility Test currently conducted by NTA. By qualifying in this test, a candidate can become eligible for the post of Assistant Professor in Indian Universities and Colleges or can get a Junior Research Fellowship in a Research Institution. The Ph.D. degree holders are likely to get more job opportunities in every sector

### NON-CORE CAREERS

#### Economic Journalism

Economic Journalism is a specialized branch of journalism focused on reporting, analyzing, and interpreting economic issues, trends, policies, and events. Economic journalists cover a wide range of topics related to business, finance, trade, labor, and government economic policies, providing insights into how economic factors affect individuals, businesses, governments, and societies. Their work is essential for helping the public, policymakers, and investors understand complex economic matters and make informed decisions.

#### Entrepreneurship

Economists will have a depth of market knowledge. They will quickly understand the market trends and profitable sectors of business. Hence by creating their own business, they can soon achieve exponential growth. So a large number of job opportunities can be created this way. It will also be helpful to reduce the unemployment issue in the country.

#### Import Export Houses

Work with or open up your own Import-Export Business, Nationally or Internationally. Import management, Export management, international capital management, International trade finance, Foreign trade policy, Foreign- exchange, Trade agreements, International labor laws, Legal aspects, Economic aspects, Accounting practices.

## **Qualities required in the Candidate who wishes to pursue Economics**

Mathematical Aptitude

Knowledge of Social Sciences

Curiosity

Ability to think Independently

Ability to deal Uncertainty

Writing Skills

Communication Skills

## Degrees Available in Economics

Degree Nomenclature	Level	Duration	General Eligibility
B.A.-Bachelor of Arts	Bachelor Degree after 12 <sup>th</sup>	3 Year	10+2 any Stream
B.A.(Hons)-Bachelor of Arts (Honors)	Bachelor Degree after 12 <sup>th</sup>	3/4 Year	10+2 any Stream
B.Sc.-Bachelor of Science (Economics)	Bachelor Degree after 12 <sup>th</sup>	3/4 Year	10+2 any Stream with Maths/Statistics/Business Maths as one of the Subject
B.Sc. (Hons)-Bachelor of Science (Honors) (Economics)	Bachelor Degree after 12 <sup>th</sup>	3/4 Year	10+2 any Stream with Maths/Statistics/Business Maths as one of the Subject
BBA in Economics	Bachelor Degree after 12 <sup>th</sup>	3 years	10+2 with Commerce or Business Studies
Bachelor of Business Economics (BBE)	Bachelor Degree after 12 <sup>th</sup>	3 years	12th class with Mathematics, Economics, or Commerce.
M.A.-Master of Arts	Master Degree after Graduation	1/2 Year	Respective Bachelor Degree
M.Sc.-Master of Science	Master Degree after Graduation	2 Year	Respective Bachelor Degree
Integrated B.A. (Hons.) + M.A. in Economics	Bachelor Degree after 12 <sup>th</sup>	5 years	12th class with Mathematics, Economics, or Commerce.
*M.Phil.-Master of Philosophy	Post Master Course	1.5 Year	Respective Master
Ph.D.-Doctor of Philosophy	Doctoral Course	2+ Year	Respective Master Degree
D.Litt.-Doctor of Literature	Post Doctoral Course	2+ Year	Respective PhD

\* One of the major changes introduced by the National Education Policy 2020 was the discontinuation of the MPhil programme (Master of Philosophy) across India. Instead, emphasis has been placed on a four-year Bachelor's degree (undergraduate) and a research-intensive Master's degree (post-graduation). Till Implementation of the NEP 2020 completely, please check individual university websites to know the current status of their M.Phil. offering.

## Specializations available in Economics along with Course Description and Core Subjects of Study

### Specialization

### BA Economics

### Description of Course

A bachelor of arts degree in economics educates students to analyse economic processes. The historical contexts that have shaped the economy are covered in this course, in addition to the difficulties that an economy is currently facing. Students are introduced to the current state of the Indian economy as well as the international trade regulations that impact it through the well-designed BA Economics curriculum.

### Core Subjects of study

- Microeconomics
- Mathematical Models for Economics
- Macroeconomics
- Statistical Methods for Economics
- Indian Economy
- Development Economics

### Elective Subjects of study

- Economics of Health and Education
- Political Economy
- Applied Econometrics
- Comparative Economic Development
- Economic History of India
- Financial Economics
- Environmental Economics
- Money and Financial Markets
- International Economics
- Public Economics

### Specialization

### B.Sc. Economics

### Description of Course

A B.Sc. in Economics covers a variety of topics, including mathematics, statistics, banking, international

finance, economic history, and foreign currency. With a more proactive approach to offering solutions to current problems rather than merely studying them, the curriculum is centered on real-world scenarios and case studies

#### Core Subjects of study

- Core Environmental Studies
- Foundation of Mathematics
- Statistics for Economics
- Macroeconomics
- Microeconomics
- Indian Economy
- Law and Economics Theory
- Theory and Application of Public Finance
- Introductory Econometrics
- Development Economics
- International Economics
- Research Methodology
- Economic Journalism
- IT Applications in Economics
- Economic Thought
- Environmental Economics
- International Relations

#### Elective Subjects of study

- Business Accounting
- Financial Analysis
- Public Administration and Policy
- Money
- Banking and Finance
- Theory of Political Economy in India
- Indian Banking and Financial System
- International Financial Management
- Introduction to Corporate Finance
- Intermediary Econometrics
- Agricultural Economics of India
- Introduction to Behavioral Finance
- Industrial Organization
- Taxation

## Frequently Asked Questions (FAQs)

<b>Q. 1</b>	<b><u>What is the fee for a B.A. (Hons.) Economics degree in India?</u></b>
<b>A. 1</b>	<p>The fee for a B.A. (Hons.) Economics degree in India varies depending on the college or university. The average fee for a B.A. (Hons.) Economics degree in India is between INR 10,000 and INR 1,50,000 per year. However, there are some colleges that charge more than INR 1,50,000 per year. The fee for a B.A. (Hons.) Economics degree also depends on the specialization. For example, the fee for a B.A. (Hons.) Economics degree in finance is likely to be higher than the fee for a B.A. (Hons.) Economics degree in development economics.</p> <p>Here are some of the top colleges in India that offer B.A. (Hons.) Economics programs and their fees:</p> <ul style="list-style-type: none"> <li>• Delhi University: The fee for a B.A. (Hons.) Economics degree at Delhi University ranges from INR 10,000 to INR 1,00,000 per year.</li> <li>• University of Mumbai: The fee for a B.A. (Hons.) Economics degree at the University of Mumbai ranges from INR 10,000 to INR 80,000 per year.</li> <li>• Kolkata University: The fee for a B.A. (Hons.) Economics degree at Kolkata University ranges from INR 10,000 to INR 70,000 per year.</li> <li>• Madras University: The fee for a B.A. (Hons.) Economics degree at Madras University ranges from INR 10,000 to INR 60,000 per year.</li> </ul> <p>It is important to note that these are just a few examples of the fees for B.A. (Hons.) Economics degrees in India. The actual fee may vary depending on the college or university.</p> <p>Here are some of the factors that may affect the fee for a B.A. (Hons.) Economics degree in India:</p> <ul style="list-style-type: none"> <li>• The location of the college or university.</li> <li>• The reputation of the college or university.</li> <li>• The facilities offered by the college or university.</li> <li>• The specialization of the degree.</li> </ul> <p>It is important to do your research and compare the fees of different colleges or universities before you decide where to study. You should also consider the facilities and the reputation of the college or university when making your decision.</p>

### **Q. 2 What is the difference between theoretical economics and applied economics?**

<b>Theoretical Economics</b>	<b>Applied Economics</b>
Focuses on creating and testing abstract models	Focuses on solving real-world problems using economic theory
Concerned with universal principles and general	Concerned with specific, practical applications in the

theories	real world
Emphasizes logical reasoning, assumptions, and theory development	Emphasizes empirical analysis, data collection, and policy evaluation
Examples: Models of consumer behaviour, market equilibrium	Examples: Evaluating economic policies, forecasting market trends

### Q. 3 Relationship between theoretical economics and applied economics?

- **Interdependence:** Theoretical economics provides the framework and concepts that guide applied economics. In turn, applied economics helps to validate or challenge the theories developed in theoretical economics by testing them against real-world data and outcomes.
- **Example of interaction:** Theories about inflation (theoretical economics) can be applied to real-world data to understand how different countries' monetary policies affect inflation rates (applied economics).

### Q. 4 How does an economics degree help in the finance sector?

An economics degree provides a strong foundation for a career in the finance sector. It gives exposure in:

- Understanding Market Forces
- Analysing Data and Trends
- Strategic Thinking and Decision-Making
- Macroeconomic Perspective
- Quantitative Skills

### Q. 5 How does an economics degree prepare me for entrepreneurship?

An economics degree can be a valuable asset for aspiring entrepreneurs where you already gain skills needed for entrepreneurship like:

- Market Analysis and Understanding
- Financial Literacy and Decision-Making
- Strategic Thinking and Problem-Solving
- Data Analysis and Interpretation
- Understanding the Bigger Picture

### Q. 6 Are there any career opportunities in data analysis or big data for economics graduates?

Yes, economics graduates are well-positioned to pursue career opportunities in **data analysis** and **big data**, given their strong background in quantitative analysis, statistics, and problem-solving.

## Thanks and Acknowledgement

I would thank all our Volunteers who have made this compilation possible. Especially I would like to thank Ms. Aishwarya Chhasatia who has been instrumental in assisting me to finish this compilation.

Also I would like to thank my co-authors Dr. Pallvi Mangal, Mr. N. Sathyanarayan and Mr. Vinod Jindal who have helped me in checking and correcting the compilation with care.

Mohit Mangal

Helping students find their true passion for more than 22+ yrs

Counselled 27k+ students | Delivered 1750+ talks

## OTHER BOOKS IN THE SERIES

## ABOUT THE AUTHORS

**Mr. Mohit Mangal** is a visionary Author and Career Counselor with over 22 years of experience in shaping the futures of India's youth. He has guided more than 7.5 lakh students through his Career Workshops across India and abroad, making him one of the most respected voices in career counselling today. Central to Mr. Mangal's approach are three key pillars: encouraging 'self-discovery', fostering 'holistic education', and promoting 'careers in India' among students. Mr. Mangal's sessions are designed to help students through self-discovery - identifying their unique strengths, values, and passions. He is also a strong advocate for holistic education, emphasizing the need to equip children with life skills, emotional intelligence, and a mindset for critical & design thinking. Recognizing the pressing issue of brain drain, he is deeply committed to promoting careers in India, helping students uncover the immense potential within India's rapidly growing economy. Mr. Mangal has authored more than 22 books including the most acclaimed Parents' Handbook of Careers After School in India. His publications have got appreciation by the Honourable Prime Minister of India, Shri Narendra Modi, among others. Mr. Mangal's influence extends beyond mentoring and counselling sessions; he has delivered over 1,750 inspiring talks, and given guest lectures at esteemed institutions like Mahmudabad, IIT Bombay, NID, and NIFT, among others. His upcoming initiative, the iQue Foundation, further underscores his vision of promoting career opportunities in India.

**Mr. N. Sathyanarayan**, a scholar of remarkable intellect and curiosity, has been a pivotal force in shaping the foundation of our efforts to build this. As a Computer Engineer and Masters of Business Administration from the Prestigious IIT-Madras, he brought unparalleled depth and insight to the process, lending his 17 years of academic excellence and practical wisdom to this initiative. An avid reader and traveller, his insatiable curiosity and commitment to knowledge have made him a rare educator who inspires both students and peers. His meticulous approach and passion for nurturing young minds have left an indelible mark on every page of these handbooks. Beyond his academic prowess, he is a thinker, a mentor, and a torchbearer for the value of holistic education. His contributions to this initiative have been nothing short of transformative, and his legacy will continue to guide countless students on their paths to success.
