No.CE/CBSE/2021/

Dated: July 15, 2021

To

The Principal/Head of Institution of
Schools affiliated to C.B.S.E.

Subject:- Opening of Portal for Moderation of Marks of Classes- XI & XII- reg.

Ref:- Notification No.CBSE/CE/2021 dated 17.06.2021

Dear Madam/Sir,

Your attention is drawn towards the details of moderation of Class-XI & XII component as given at Point-10 of the Tabulation Policy issued by the Board vide Notification No. CBSE/CE/2021 dated 17.06.2021. As per the time schedule given in policy, the portal for moderation and finalization of results for Class-XII **is being opened from 16.07.2021(Afternoon) to 22.07.2021 (Mid Night). As Board has to declare the result latest by 31.07.2021, schools are requested to follow the schedule strictly and complete the moderation within schedule. If any school is left to complete the moderation within stipulated schedule, their result will be declared separately after 31.07.2021.**

It is important to reiterate that the common objective before all of us is declaration of valid, reliable and unbiased results of the students in the pandemic situation. Moderating marks of Class-XI & XII will be a great responsibility, which has to be done in a manner to ensure justice and fairness to students. Any differential application of policy across schools may result in either adverse impact or undue gain for some students. It should be kept in mind that the responsibility of the Result Committee is being exercised on behalf of CBSE for the entire student population and should not be seen as limited to that of a particular school. Schools are therefore mandated to moderate the marks in such a manner that the results are comparable and no student should suffer because of any unequal application of policy within a school or across schools.

To aid the schools, CBSE has provided marks, including distribution of the marks, based on best performance of previous three years which is taken as reference for the purpose of moderation. Schools are once again directed to follow the reference distribution while moderating marks. Also, to ensure comparability and fairness at the higher range of marks, schools should exercise due diligence and ensure that there is no bunching of total marks in the range of 95 and above. They will, therefore, have to restrict the number of students at each level of overall marks from 95 and above, to ensure that this number is not more than the number of students scoring these overall marks, as per the best historic performance of the last three years.

The broad pattern of distribution of students' total marks (Theory + Practical) of a school (i.e., the composite total of class-X, class-XI and class-XII theory marks) has been provided by the CBSE in the following manner:-

Table-A

SUBJECT: MATHEMATICS		CLASS XII - 2020			
Marks Range (in %age)	<33%	≥33% to 50%	≥50% to 75%	≥75% to 95%	≥95%
Percentage of total students having marks in the particular range.	1%	19%	30%	20%	30%

Table-B

SUBJECT: MATHEMATICS		CLASS XII - 2021			
NUMBER OF STUDENTS = 200					
Marks Range (in %age)	<33%	≥33% to 50%	≥50% to 75%	≥75% to 95%	≥95%
Number of Students	1% of 200 = 2	19% of 200 = 38	30% of 200 = 60	20% of 200 = 40	30% of 200 = 60

Schools will therefore have to, additionally, ensure that after moderation, the number of students with overall marks in the range of 95 and above, this year, is not more than the number of students scoring such overall marks, as per the best historic performance of the last three years.

To further facilitate the schools in moderation of marks, user friendly software has been developed by CBSE, the guidelines of which will be made available on portal. This software has two sections – 1. Subject wise moderation and 2. Overall moderation. A complete tabulation sheet will be visible for schools comprising of all components of marks viz. Class X, Class XI, Class XII & Practical/Project/IA and schools should first go through the guidelines and understand before you undertake the exercise of moderation of marks. It may also be ensured that **'Submission'** button needs to be pressed only when you are confirmed that moderation done by you is 100% correct.

In case, it is observed that a school has not followed the directions, CBSE before preparation of result will moderate the marks to bring the awarded marks in consonance with the objectives of the policy. It is also informed that the changes made by the schools in data will be recorded by CBSE. If it is observed that the policy has not been followed in letter and spirit by schools, CBSE may initiate action against such schools as stipulated in the policy.

The above instructions may be complied with strictly within schedule given.

Yours faithfully,

(Dr. Sanyam Bhardwaj)
Controller of Examinations
