India is a country where leading religions had their origin. It is a peace loving country. It is the biggest democracy in the world. There are several achievements, which put us for ahead of many other countries. We fail to judge it as the best country in the world. For a child his own mother or father is the best person in the world. So is the case with the country.

OR

If the country is to prosper and progress, there must be national integration. It is necessary not only during foreign attacts but even in peaceful times. If there is integration,there will be cooperation,which is the surest way to success. On every side one can find divisive forces and anti social elements at work. These are all the handiwork of the enemy who is interested in destroying the nation.
